

Welcome to the DAO made of Marble.
Community-driven with a common vision to gain Persistent Benefits

The marble not yet carved can
hold the form of every thought
the greatest artist has.

Michelangelo

Vision

Vision & Value Proposition

We are among the first **Decentralized Autonomous Organizations (DAO)** on Juno Network. We are building the future of **Decentralized Finance** and our aim is to create a **community-driven** project where people can **vote, stake, earn, lend and trade NFTs safely**.

Juno is getting bigger and bigger. This is just the beginning and we are part of its improvement. We are going to create several decentralized applications (**dApps**) with **multi-chain smart contracts**, the most remarkable feature on Cosmos: the **Inter Blockchain Communication (IBC)**. We will be able to use a wide range of features like the **smart contracts** on Juno and the **privacy-based** characteristics of **Secret Network**. We want to create a DeFi ecosystem with privacy features.

The **Cosmos Blockchain** is among the most **trusted** and **fastest** growing crypto chains, solving several issues and bringing several solutions **natively**. Cosmos and Ethereum will be the main player in this sector, allowing millions across the globe – from single individuals to the largest institutions – have an simple and safe way to access finance cryptocurrency.

EVM chains have several **security issues** that do not allow developers to combine and extend the perimeter of dapps on L2 blockchains. We have already seen a good number of **exploits** (+600M on Poly Network and +320M on Wormhole Bridge).

These are the reasons why we choose Juno Network.

As a **sovereign public blockchain** in the Cosmos ecosystem, Juno aims to provide an environment for the deployment of **interoperable smart contracts**. The network serves as a **decentralized, permissionless & censorship resistant** avenue for developers to efficiently and securely launch smart contracts using proven frameworks and compile them in various languages **Rust & Go**.

More over, **Juno Network Core-1 Dev team** is creating many **helpful tools** to improve the **ecosystem** and **make each project easier to scale**. The Cosmos season (or better to say IBC Season) is coming and the Juno community is going to be growing even bigger and better. Everyone in this ecosystem will experience growth such as that seen with other L2's (Polygon, Avalanche, Fantom).

Be ready Juggernauts made of Marble, for these are just the first steps. Join the DAO and enrich your life.

Timeline

Roadmap

We have a lot of things in mind, stay tuned this section is a WIP. The team is working **harder and harder** to achieve the following milestones:

February

- ✓ Twitter, Telegram Launch
- ✓ Website Launch
- ✓ Listing on Juno Network Ecosystem
- ✓ Marblepaper Release
- ✓ Snapshot Activities
- ✓ Draft of the first Proposal
- Discord Server Launch
- More Contest and Giveaways

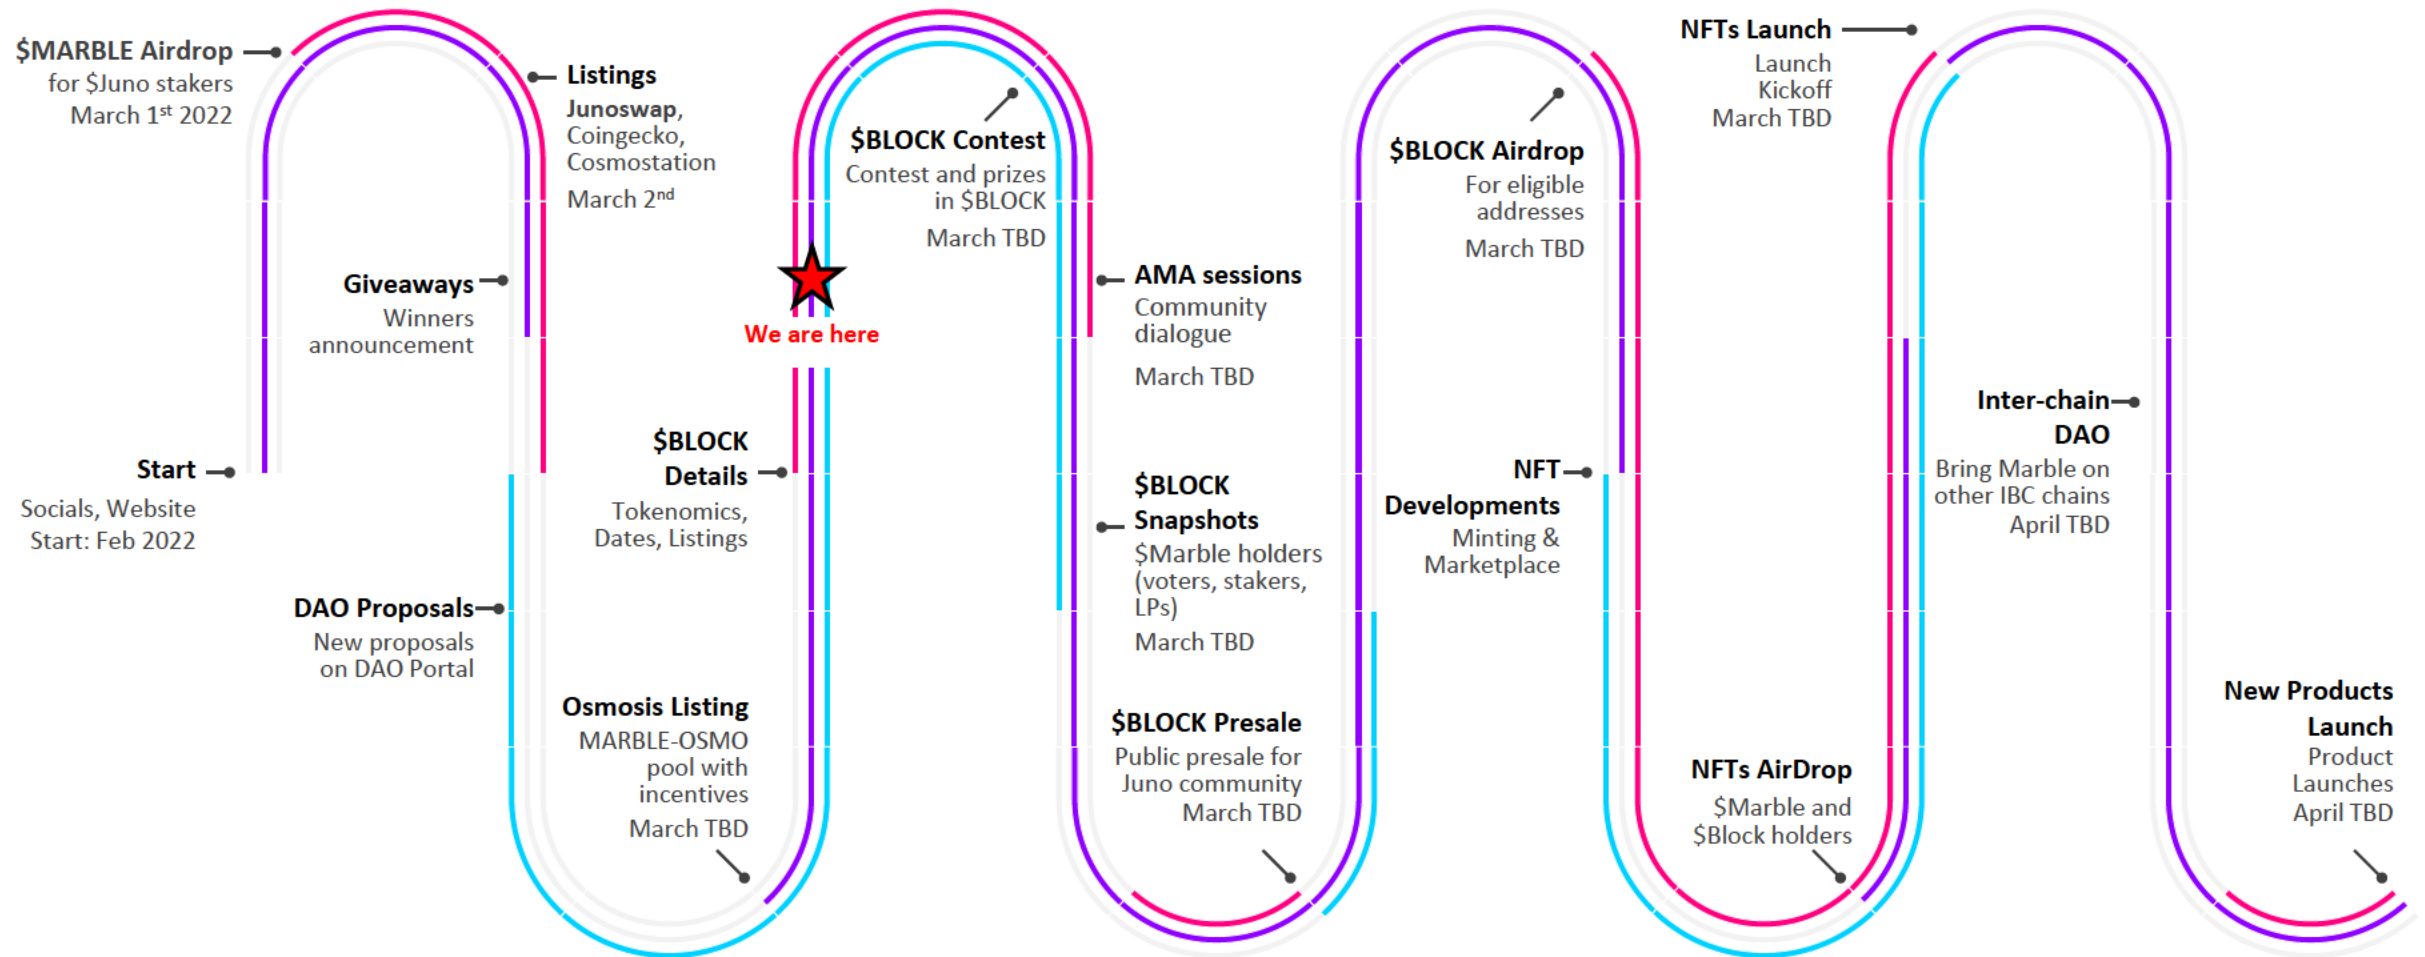

March

- ✓ Marble Airdrop Start
- ✓ First Proposal Vote
- Improve Relationships with other projects on Juno Network
- Contest & Marketing \$BLOCK
- ❑ Launch of our 2nd token BLOCK \$BLOCK
- ❑ Liquidity Staking & Incentives Start
- ❑ "The Marblenauts" first official NFT collection
- ❑ Development Marble NFTs Marketplace

April-June

- ❑ Minting of real NFTs of Marble (Marble NFTs)
- ❑ Launch of Marble NFTs Marketplace
- ❑ Start of new developments on other IBC chains (Cosmos/Osmosis/Secret etc. etc.)
- ❑ Bonding / Minting to gather more funds for the Treasury
- ❑ Proposal on how to allocate funds (Investments on new project on IBC)

Marble DAO Timeline

\$Marble

GovDrop

In this section you can find all the details about the GovDrop of \$MARBLE.

- \$MARBLE holders will guide the DAO through its decisions – **you are part of an organization**, the first one on Juno
- Total Supply of 21,000 tokens
- 97% of supply will be airdropped to Juno stakers solely – no seed sale, no private sale and no public sale
- 3% of supply will be for the core-team to create LP (Osmosis and JunoSwap), **giveaways, incentives, increase Treasury** – at the end the core-team will not hold any MARBLE
- The snapshot has been taken on February 18th - 54310 delegators and around 20400 eligible addresses!!

Airdrop criteria:

- *Person delegated at least 20 JUNO on-chain: 0.75 MARBLE*
- *Person voted on at least 1 on-chain governance proposal: 0.2 bonus MARBLE*
- *Person voted on all 14 on-chain governance proposals: 0.5 bonus MARBLE*
- *Person delegated to at least 1 validator outside the top 50: 0.1 bonus MARBLE*
- *Giveaways winners*
- *We are evaluating to airdrop directly in the wallets or claim on ad-hoc website – new details will be released soon*

Marble DAO Governance

Marble has found its DAO on [DaoDao](#). This tool allows us to manage our DAO in an efficient way. More powerful tools will be released, stay tuned!

- \$Marble address
juno1g2g7ucurum66d42g8k5twk34yegdq8c82858gz0tq2fc75zy7khssgnhjl
- Staking address
juno13hsmf05g3ukaz6z5cxfuxnfgtldw9w8qma3yyvk43s9sztdsxqakrpt9
- Create proposals easily. You to have stake some \$Marble to create a proposal – 55 minimum required
- In order to vote you have to stake your \$Marble
- When the proposal is ended, you can leave your \$Marble staked or you can unstake them – the unstaked tokens will be released after 2 hour

← Home / Marble DAO / Proposal 1

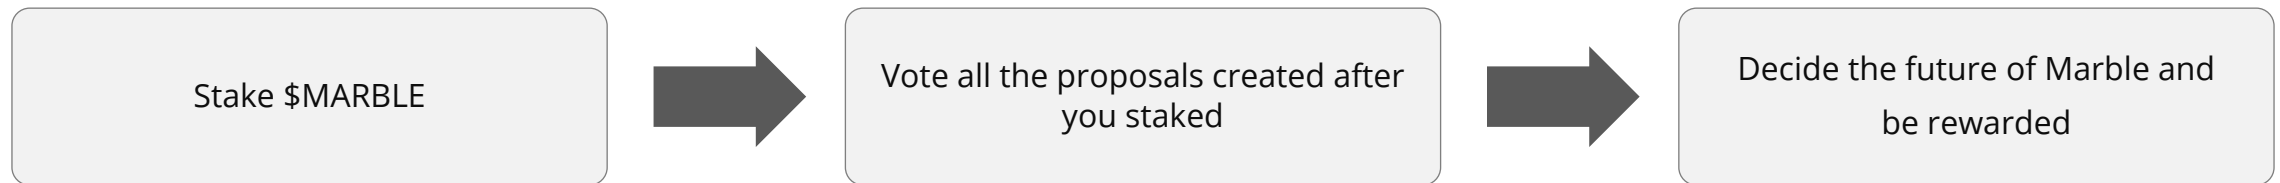

Marble DAO Foundation

New settings that will encourage voting on matters of more substance and to limit spammy/pointless votes:

- Proposal deposit: 55 \$MARBLE
- Passing Threshold: 67%
- Voting duration: 72 hours
- Unstaking Duration: 2h
- Refund Failed Proposal Deposit: No, they went to the Treasury if the proposal fails

Marble DAO Foundation

- DAO DAO is the service provider for DAO's management
- The more you stake, the more you increase your voting power
- You can vote proposals created AFTER you stake
- We'll announce the creation of any proposals in order to let you stake before
- When a proposal is created, DAO DAO considers the staked \$MARBLE until that moment:
 - Passing Threshold: the % of required \$MARBLE votes based on the staked ones – (now is 67%)
 - Voting duration: how long the proposal is valid (now is 7 days)
 - Proposal Deposit: how many \$MARBLE are needed to create a proposal (55 \$MARBLE)
 - Unstaking Duration: required time to unstake (now is 2h)
 - Refund Failed Proposal Deposit: if the proposal fails, the deposited \$MARBLE are sent to the Treasury (now is ON)

\$BLOCK

The DEX token of Marble DAO

\$BLOCK - The Block Token

Any sculptures start from a block.

\$BLOCK is the Marble DEX token and whoever is contributing in Marble DAO will be airdropped. Being part of the DAO is a fair way to earn new tokens and NFTs for free.

Even if you are not part of the DAO, you will be able to buy \$BLOCK with a public presale.

- Total Supply of 500,000,000 tokens minted at genesis
- Supply Breakdown:
 - LP Pool incentives rewards (over 5 years): 150,000,000 \$BLOCK
 - DAO Stakers rewards (over 5 years): 150,000,000 \$BLOCK
 - Airdrop Marble holders rewards (details TBA): 100,000,000 \$BLOCK
 - Public Presale (Front Loaded Vesting): 50,000,000 \$BLOCK
 - Marble Core Team (vested 5 years): 50,000,000 \$BLOCK
- Presale and Airdrop will be conducted on Marble website
- Snapshots dates and Airdrop bonuses to voters
- DAO treasury will receive all unclaimed \$BLOCK
- The Core team allocation is a strategic reserve, fully vested for 5 years

\$BLOCK – LP/DAO Rewards

The rewards will be allocated as follows. The rewards will be less year in year, to reduce the \$BLOCK's inflation

	DAO Stakers	LP Pool
Year 1	50,000,000 \$BLOCK	40,000,000 \$BLOCK
Year 2	40,000,000 \$BLOCK	30,000,000 \$BLOCK
Year 3	30,000,000 \$BLOCK	30,000,000 \$BLOCK
Year 4	20,000,000 \$BLOCK	25,000,000 \$BLOCK
Year 5	10,000,000 \$BLOCK	25,000,000 \$BLOCK

\$BLOCK - Airdrop

Being part of a DAO has great benefits.

100,000,000 of \$BLOCK for \$MARBLE holders, liquidity providers, voters, DAO stakers and NFT holders. The more you are active in the DAO, the more you'll be rewarded. We consider voters as the greatest way to be active, then the DAO Stakers, then Liquidity providers and the holders.

Three snapshots will be taken to evaluate the behavior of DAO members. The amounts of Marble, LP and NFT are considered for the calculation.

- **Voters:** for each voted proposal, you will receive a certain amount of \$BLOCK. The more you are involved in the DAO and its decision, the more you are rewarded.
- **DAO Stakers:** if you vote or not, you are staking on the DAO, improving the decentralization and reducing the weight of the whales. This is a great way to earn rewards by doing nothing.
- **LP Holders:** you are allowing the swaps and in the meantime you are waiting for incentives, you are already earning the swap fees. Stake your LP and be rewarded twice!
- **Marble Holders:** by holding \$MARBLE you can still earn more even if you are not active in the DAO. You are missing a lot of opportunities but you are doing well!
- **NFT Holders:** this is an extra way to earn more bonuses as rewards! Whoever buys the first NFT collection of Marble DAO, it'll be rewarded for life!

\$BLOCK to Airdrop: 100,000,000		
	Weight	Allocated Amount
Voters	35%	35,000,000
DAO Stakers	25%	25,000,000
LP Holders	20%	20,000,000
Marble Holders	15%	15,000,000
NFT Holders	5%	5,000,000

\$BLOCK - Airdrop

Being part of a DAO has great benefits.

100,000,000 of \$BLOCK for \$MARBLE holders, liquidity providers, voters, DAO stakers and NFT holders. The more you are active in the DAO, the more you'll be rewarded. We consider voters as the greatest way to be active, then the DAO Stakers, then Liquidity providers and the holders.

- The total amount of 35M \$BLOCK is airdropped to all the voters of certain proposals
- The list of valid proposals will be shared and updated
- Proposals #3 and #4 are valid for eligibility of \$BLOCK

the DAO and its decision, the more you are rewarded.

- All the holders and stakers will be airdropped based on the amount they hold/stake
- **In order to avoid gamification on the airdrop, details about the calculation logics will be released few moments before of the first snapshot**

twice!

• Marble Holders: by holding \$MARBLE you can still earn

- The NFT holders will receive also a special bonus in \$BLOCK. Wait for the announcement to discover more details

Marble DAO, it'll be rewarded for life!

of DAO members. The amounts of Marble, LP and NFT are considered for the calculation.

\$BLOCK to Airdrop: 100,000,000

	Weight	Allocated Amount
Voters	35%	35,000,000
DAO Stakers	25%	25,000,000
LP Holders	20%	20,000,000
Marble Holders	15%	15,000,000
NFT Holders	5%	5,000,000

\$BLOCK – Public Presale

\$BLOCK is the Marble DEX token and the 80% of supply is to reward members of the DAO.

An exclusive 10% will be allocated to conduct a **public presale**. On Marble website anyone will be able to buy \$pBLOCK at discounted price. Then you'll receive \$BLOCK

The terms of the presale are the followings:

- Available tokens: 50,000,000 \$pBLOCK
- Presale price: 0,015\$
- Front Loaded Vesting Schedule of 6 months: the tokens will be unlocked each month with the following schedule 20%-18%-17%-16%-16%-13%
- Max purchase amount: 2% of supply – 1,000,000 \$pBLOCK
- Start date: March 19th
- End date: March 26th
- The funds will be allocated as shown in the chart

Further details will be released soon with a specific document section.

Presale Allocation

- Liquidity Pool
- Marketing
- Developments & Infrastructure
- Salary Core Team
- Hire new team members
- Treasury

\$BLOCK – Front Loaded Vesting Schedule

At the end of each month, you'll receive \$BLOCK based on the following schedule: 20%-18%-17%-16%-16%-13%. The percentage refers to the \$pBLOCK you bought.
Example: you bought 250 pBLOCK. At the launch of \$BLOCK on 03/31, you'll receive the 20%: 50 pBLOCK. On April's end, the 18%: 45 pBLOCK and so on..

	March	April	May	June	July	August
1 st unlock	20% 					
2 nd unlock		18% 				
3 rd unlock			17% 			
4 th unlock				16% 		
5 th unlock					16% 	
6 th unlock						13% 

Road to \$BLOCK

100,000,000 of \$BLOCK will be airdropped to \$MARBLE holders, liquidity providers, voters, DAO stakers and NFT holders.

Writing this schedule will help you keep track of snapshots in order to get you organized!

	Monday	Tuesday	Wednasday	Thursday	Friday	Saturday	Sunday
First Snapshot:		1	2	3	4	5	6

		<ul style="list-style-type: none">Third Snapshot		<ul style="list-style-type: none">\$BLOCK Airdrop Claim Start			

Marble NFTs

Marble NFTs

Everyone knows how important NFTs are. They can add incredible value with the right utility.

We already know that NFT will be a major player in the future. Imagine having real machinery with a digital representation tokenized as an NFT. Now the NFTs collect data about the machinery thanks to IoT providing each worker certainty that the data is complete, consistent, valid and timeliness.

As a DAO, we want to invest in these protocols, in the next startup of the future.

But what about Art?

We got used to seeing NFTs like piece of (digital) art. We want to change things and create real pieces of work linked to NFTs.

You are buying a real sculpture made of Carrara Marble with a digital representation that certifies that you are the owner.

Now, we are already working on several unique pieces that will most likely sold in March and you'll receive them directly to your house, if you want.

Buying NFTs no longer has to be speculative act but rather can be a great act of philanthropy.

The collected funds of the auction will be used for:

- Increase Treasury size
- New developments
- New unique piece of Art
- Hire new team members

Careers

Careers

Are you looking for a challenging and motivating work environment?

Marble DAO is looking for more team members to enrich its crew:

- Passionate about the DeFi space - blockchain technology, existing protocol designs, game theory
- Research and develop protocol upgrades and new contracts with a focus on security, simplicity and ease of use
- Produce high quality, performant, and well-tested code
- Brainbattle with other devs/team members
- Proficient English communication skills.
- 100% remote & flexible hours
- Crypto payment (UST)

Take a look at our open job positions:

- Rust Developer
- ReactJS Developer
- Community Manager

Thanks for taking the time to read the Marblepaper.
